As a frontend developer with more than 2 years experience working with React and Typescript, and some backend skills using Node.js, I enjoy creating quality products to provide a good user experience, following best practices, which are essential for writing efficient, clean and reusable code.

Experience

Frontend Developer - Instituto Nacional de Tecnología Industrial (INTI)

Jan 2023 - Jul 2024

- Worked with the team on the redesign and rebuild of the web application, as well as in its ongoing maintenance and improvement.
- Collaborated on user experience improvements to increase user engagement.
- Implemented filtering systems with real-time search using debounce techniques, enhancing data accessibility for users.
- Developed reusable components and optimized performance by utilizing TypeScript and React.
- Ensured adherence to security practices such as OWASP principles while handling sensitive application data.

Web Developer - Freelance

Mar 2021 - Dec 2022

- Delivered custom websites based on client needs using HTML, CSS, JavaScript, React, and non-relational databases.
- Established communication channels like Slack or Zoom to keep clients informed about project progress, allowing for quick adjustments to meet expectations.
- Built an e-commerce filter system with React and Node.js to enhance product search and improve the user experience.
- Designed and deployed authentication systems using JWT, integrating secure APIs with RESTful architecture.
- Employed Postman for API testing and debugging during the development of web applications.

Investment Analyst - Instituto Nacional de Tecnología Industrial (INTI)

Mar 2013 - Dec 2022

- Responsible for investment analysis within the Operational Sub-management of Construction and Infrastructure.
- Drafting specific agreements with other organizations and managing the administrative process.
- Conducted training courses on procurement procedures for various departments within the organization.

Education

Degree in Computer Science - UBA

Jan 2018 - Present

Bachelor's Degree in International Trade - UNLAM

Jul 2009 - Jan 2017

Courses

Professional Web Design - Carlos Arturo Esparza (Udemy)

React & Firebase - Carlos Arturo Esparza (Udemy)

TypeScript – Microsoft Learn

Practical Node.js Course - Miguel Ángel Durán

MERN Stack - Fazt Code

Next JS - Js Mastery
